We Are Creative Fabricators

ROOTED IN OVER 35 YEARS

VGS is an employee-owned, fully-integrated leader in design and fabrication, spanning over 35 years, 12 markets and thousands of projects. From value-driven visual communication systems (signage, fixtures, graphics) and interior / exterior signage, to donor recognition solutions, drive-thru solutions, menu boards, stock display fixtures and so much more, we are a true powerhouse of creativity and craftsmanship.

We have the advantage of combining our unique design proficiency and strong project management skills, with solid fabrication expertise, to create an unparalleled customer experience with their customers and guests.

We Are Here to Help.

At Visual Graphic Systems Inc. (VGS) we are industry pioneers. Whether we're helping you with an office, fitness center or restaurant, etc. — we are here to help set up your environment for success and guide you along the path to re-opening.

As the current COVID-19 situation brings on new needs on a daily basis, VGS has done its best to help clients both communicate and facilitate health & safety measures.

We are repurposing many of our **stock offerings** and **inventing new ones** to fulfill these unprecedented needs. Included within this document are a few key areas we are thinking about and are able to provide quickly given we have the product available.

All of which can be customized to either be customer facing or for internal use and communication:

- Flexible, changeable health & safety messaging and signage solutions
- Freestanding protective health barriers (customer/staff)
- Branded/custom hand sanitation & communication stations

We provide a wide range of verticals — from retail and foodservice to office and fitness centers, etc. — informational and safety display fixtures and signage solutions that provide people with the information they need when and where they need it.
